### **ANCESTRY DNA INCLUDING THRU LINES**

**Presenter: Robert Jenkins, CGHS President**

Have you had your DNA tested with Ancestry.com? Do you have matches? How familiar are you with the various tools Ancestry offers to analyze and explore the results of your test or the tests that you manage?

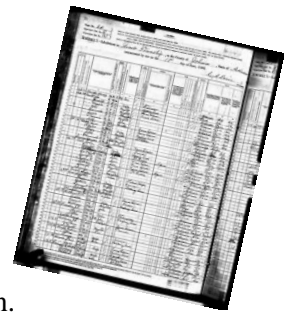

Bob has been spending his “Safer At Home” time delving in to the resources of Ancestry DNA and its ThruLines tool. He will discuss the results of this research into his own pedigree.

**Tuesday, September 15 1:00 p.m.**

### **WHEN THE CENSUS ENUMERATIONS ARE NOT CORRECT!**

**Presenters: Ann Lisa Pearson and Barbara Elliott**

If you have never looked at Census records or if it has been awhile this will be a great refresher course. Ann Lisa and Barbara have been reviewing exactly what the Census has to offer and the type of information recorded. Remember the spelling of names could be different. Clues to where a person was living and their ages can be found in the census and many other things depending on the year of the census. It is just a wealth of information.
